

## Step 1:

### Unzip triggers V10

Name	Date modified
triggers_mp3	9/28/2025 8:27 PM
tv10	9/28/2025 8:26 PM
miss.sql	9/28/2025 7:32 PM

The triggers\_mp3 folder and tv10 folder need to be in the same directory.

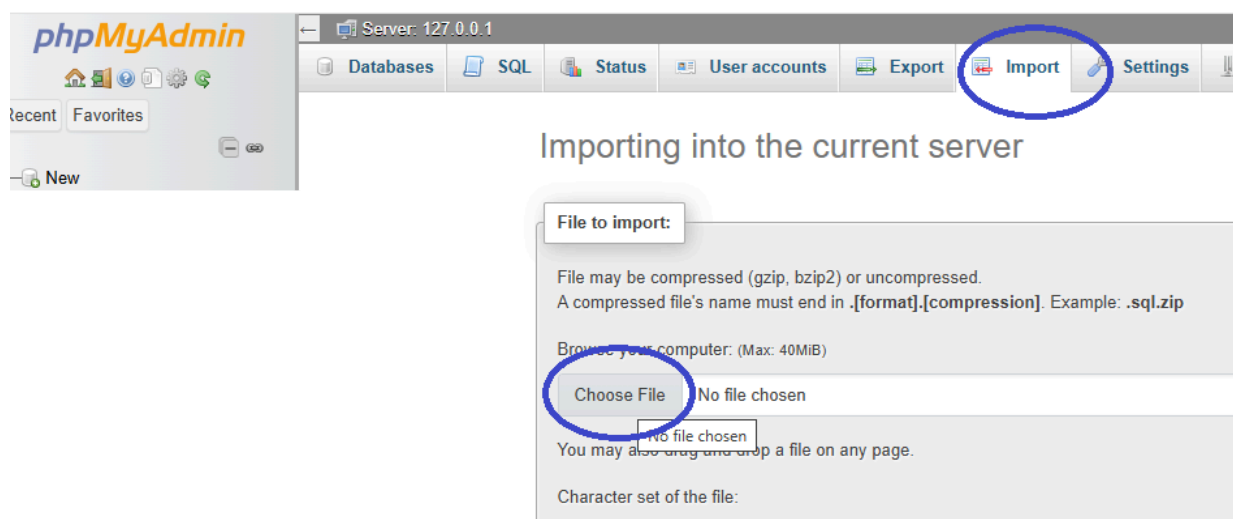

## Step 2:

Create a new database in phpMyAdmin named u950110925\_triggers

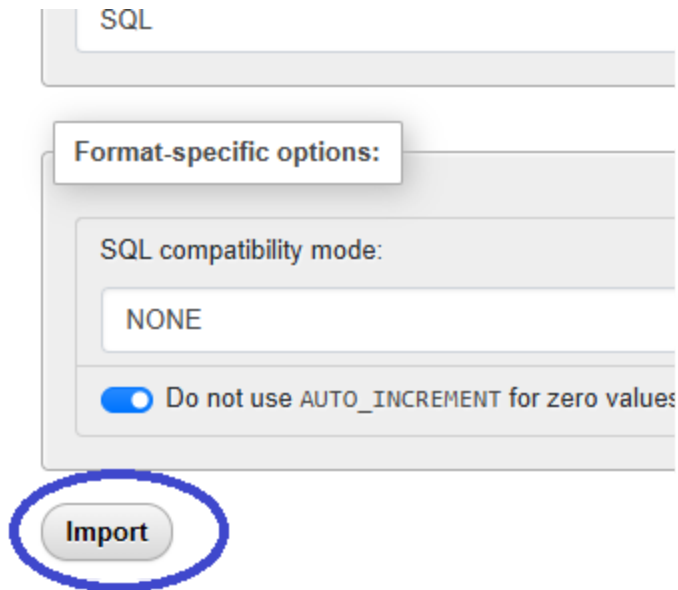

## Step 3:

Import tables into your sql database:

- miss.sql

then scroll to the bottom and import.

## Step 4:

In the file [fetch-miss.php](#) update the database with your login info

```
$servername = "localhost";  
$username = "u950110925_triggers";  
$password = "";  
$dbname = "u950110925_triggers";
```
